On February 22 to 24, 2018, select Mechanical & Industrial Engineering MASc and PhD applicants will:

- enjoy an expenses-paid trip to the University of Toronto*
- meet one-on-one with our professors
- learn about graduate research programs in mechanical or industrial engineering
- tour MIE lab facilities and the historic St. George campus
- attend an informal mixer with fellow prospective and current graduate students
- attend a formal dinner with faculty, current students and alumni
- automatically be considered for an endowed fellowship in their area of research
- have their SGS online application fee ($120) reimbursed

The event is by invitation only – apply ASAP to be considered early.

*Applicants who live in Toronto will not be eligible for hotel and travel reimbursement

Eligibility
Space is limited to ~35 attendees. GRD 2017 is open to domestic (Canadian citizen and permanent resident) students:
- who apply to the Department of Mechanical & Industrial Engineering’s MASc or PhD program ASAP, or by January 15, 2018
- in their final year of undergraduate studies or who are about to complete their Master’s degree located in Canada or the US only

Application Procedure
- Learn about our admission requirements and how to apply
- Complete the University of Toronto School of Graduate Studies (SGS) Online Application and pay the application fee (invited applicants will be reimbursed)
- Once completed, confirm that you wish to be considered by sending an email with your SGS applicant number to David Duong, Student Liaison and MEng Admissions Coordinator.
- Please send general inquiries regarding PhD and MASc applications to grad.admission@mie.utoronto.ca

Please note when applying:
- The application process takes 30-60 minutes online
- If you are selected, you will receive an official invitation
